

HOME ENERGY ASSESSMENT

Identify sources of energy waste and save on your heating and electric bills by having a free energy assessment of your home.

EXPERT ADVICE

ENE provides comprehensive Residential Energy Assessment services for **Taunton Municipal Lighting Plant's** residential customers. Our highly trained and experienced Residential Energy Advisors can examine your home for all of your heating, lighting, and weatherization needs.

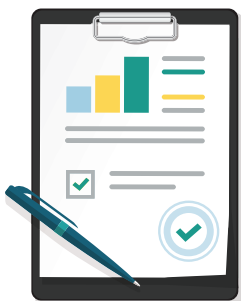

Energy saving materials are provided during the course of the assessment. Energy Advisors compile the data collected to produce a detailed evaluation and summary report of energy usage based on the Advisor's inspection of the home. Findings are reviewed for potential energy efficiency improvements, and achievable energy savings are explained.

Participating residential customers can request a Home Energy Assessment and receive information about incentives or rebates currently offered by **Taunton Municipal Lighting Plant** by calling ENE's energy hotline.

RESIDENTIAL ENERGY ASSESSMENT

The Energy Advisor will evaluate a broad range of energy saving opportunities in the home, including:

- ✓ Insulation
- ✓ Appliances
- ✓ Heating/cooling
- ✓ Windows and door weather-stripping
- ✓ Water heating
- ✓ Efficient lighting
- ✓ Window and door replacement
